Background

The [Gro-Sure Watering Indicator Stick](#) makes it easy to tell if your plant needs water or not - no more guessing!

New Product

Benefits and Features

- Easy to use.
- Long lasting.
- Reliable.
- For all houseplants.

Available As

- Individual 1 stick packs.

How to Use

Directions

- Push the tip of the watering indicator stick into the centre of the plant root-ball.
- The indicator stick will tell you when your plant needs more water. A red window display means your plant needs to be watered, a blue window display means no water is needed.
- Once you have watered your plant the indicator will change colour from red to blue within 2 hours.
- Only add water if the indicator stick has completely changed to red. Do not twist or pull out the indicator.
- We recommend replacing the indicator stick after 12-18 months.

CPR for Your Houseplants
