READ LABEL BEFORE USE

- Fast acting - results within 1 to 3 hours.
- BioGro® certified for use in organic gardening. *Allowed for use in organic production.
- Inactive in soil - won't harm neighbouring plants.
- Safe for children and pets once dry.
- Rain fast in 2 hours.
- On lawn weeds, use as spot treatment only. **Weed Weapon Natural Power** will kill lawn grasses.

GENERAL INFORMATION

For targeted application on weeds only. This product is approved for the purposes of spraying of weeds along fencelines, paths, driveways, adjacent to buildings and yards on any BioGro® certified property. Spraying weeds under or around fruit trees, grape vines or berry canes on BioGro® certified properties is also permitted. The product can also be used for spraying out pasture prior to re-sowing. The applicator must take all practical steps to avoid spray drift on to the crop - we recommend the use of a knapsack sprayer or mini-boom. Do not apply near desirable plants or turf areas, as this is a non-selective weed killer. If spray drift occurs, immediately hose off with water.

DIRECTIONS FOR USE:

Annual weeds and newly emerged perennial weeds: Dilute 70 ml Weed Weapon Natural Power per 1 L of water (or 7 L per 100 L of water).

Established perennial weeds: Dilute 100 ml Weed Weapon Natural Power Concentrate per 1 L of water (or 10 L per 100 L of water).

Knapsack and Gun application: Use conventional application equipment capable of achieving complete coverage of target plants. Ensure complete coverage of weeds, spray to run-off.

Boom spraying: Apply Weed Weapon Natural Power Concentrate at rate of 70 - 100 L/ha. Apply with course fan nozzles. Boom height should be set so a double overlap of nozzle pattern is achieved at the top of the target plants. Ensure that plants are thoroughly saturated - apply to run-off. Best results are obtained on warm sunny days, avoid spraying in windy conditions.

Make repeat applications when there is sufficient regrowth or new germination has occurred.

DIRECTIONS

1. Shake well.
2. Dilute 70 ml concentrate in 1 L water.
3. Mix thoroughly.
4. Apply using a pressure sprayer.
5. Spray entire weed until foliage is just wet.

The substance must not be applied when wind speeds are less than 3 km/hr or more than 20 km/hr as measured at the application site.

RESISTANCE MANAGEMENT

GROUP 0 HERBICIDE

Weed Weapon Natural Power contains fatty acids. Some naturally occurring weeds may become resistant when excessive use of the same herbicide occurs. To prevent or delay the development of resistance, use in tank mixes and/or rotate use with herbicides with a different mode of action. Consult <http://resistance.nzpps.org/-index.php> for alternative modes of action and details of resistance management strategies (if any) for the crops listed on the label.

ACTIVE INGREDIENTS

650 g/L Fatty acids (plant derived) and soaps in the form of an emulsifiable concentrate.

BioGro® licensee No 4850.

WARNING

Causes serious eye irritation. Designed for Biocidal Action.

PRECAUTIONS

Read label carefully and follow all instructions. When applying wear eye protection and waterproof gloves. Avoid skin or eye contact. Wash hands and exposed skin after use. If using near coloured paving stones test a sample area before application.

FIRST AID

If swallowed rinse mouth and drink 1 - 2 glasses of water or milk. Do not induce vomiting. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention. IF ON SKIN: Wash with plenty of soap and water. Take off contaminated clothing and wash before re-use. If skin irritation occurs: Get medical advice/attention. Contact the National Poisons Centre on 0800 764 766 and have product label at hand if medical treatment if needed.

ENVIRONMENTAL CARE

Harmful to the aquatic environment. Collect spillage. Do not apply into or onto water. For ground-based applications only.

STORAGE/DISPOSAL

Store in a cool dark place (below 35°C) out of reach of children and away from heat and direct sunlight. Dispose of this product by using it in accordance with this label. Dispose of the container after triple rinsing and adding the wash to the spray mix.

As Kiwicare Corporation Limited has no control over the storage or use of this product, no liability is accepted for accidents or damage arising from the incorrect storage or use of this product.
