## LawnPro Fungus Control

Control Disease, Protects Lawns

[www.kiwicare.co.nz](http://www.kiwicare.co.nz)

# Background

Lawn fungal diseases cause stress, browning out and death of lawn grasses. Lawns are susceptible in warm damp conditions. [LawnPro Fungus Control](#) for Lawns protects lawn grasses from fungal disease.

## Benefits and Features

- Liquid formulation
- Protects from a wide range of fungal lawn diseases
- #Cover up to 100 m<sup>2</sup>

## Controls

- Red thread, Fusarium, Brown Patch, Melting Out, Greasy Spot, Fairy Rings and Mushrooms

## Available As

- Concentrate: 200 ml

## Active Ingredients

Concentrate: 400 g/L Thiram as a suspension concentrate

## Directions

1. Shake well
2. Dilute at the appropriate rate and mix well

### **Lawn disease prevention#:**

Dilute 10 ml per litre of water and apply at a rate of 1 litre of spray to 5 m<sup>2</sup> of lawn

### **Existing lawn disease:**

Dilute 40 ml per litre of water and apply at a rate of 1 litre of spray to 5 m<sup>2</sup> of lawn. Apply to the affected areas and at least 1 m around

### **Disease^ prevention on ornamental plants:**

Dilute 5 ml per litre of water. Spray all foliage, including undersides of leaves, to point of run off

### **Root protection:**

Dilute 40 ml per litre of water and apply to thoroughly soak the soil when planting

### **Animal repellent:**

Mix 100 ml per litre of water to make a milky liquid

Apply by spraying or painting onto the trees or shrubs to be protected from browsing animals (rabbits, hares, possums). Re-apply to new shoots

3. Apply using a pressure sprayer or watering can as appropriate

<sup>^</sup>Rust, powdery mildew, leaf spot, blight, dieback.

## Tips

- 1 week after application, rake out any dead material and mow the lawn
- Repeat application 2 weeks after the first application and every 2-4 weeks thereafter
- In areas with high humidity apply every 2 weeks, in other areas and for prevention, apply every 4 weeks
- If the lawn requires irrigation: water in the morning so that the grass dries during the day
- Bare patches caused by disease can be re-sown after control has been achieved
- We recommend [LawnPro Smart Patch Mix](#) for small repairs or Smart Seed for larger areas

## Caution

- Do not use in or over water
- It is an offence to use this product on animals
- Not for use on fruit or vegetables

## Regulations

- HSNO Approval code: HSR000475
