LawnPro 7 Day Green

The faster way to a greener healthier lawn

www.kiwicare.co.nz

Background

[LawnPro 7 Day Green](#) is an innovative product for easy application of nutrients to lawns. Sprinkle [LawnPro 7 Day Green](#) on your lawn to green and strengthen the lawn grasses and condition your lawn soil. 7 Day Green is a combination of immediately available balanced nutrients and nutrients released over time with lime to sweeten the soil (adjust the pH).

New Product

Benefits and Features

- 7 day greening - Lawns become noticeably greener within 3 days.
- Regular applications will create a thicker, harder wearing lawn.
- 2.8 kg covers 100 m²
- NPK – 3-1-3
- Raises pH of soil to help control of moss, hydrocotyle and other acid loving weeds. (Follow up with [LawnPro Mossclear](#) and [LawnPro Prickle and Hydrocotyle](#)).

Available As

- 2.8 kg refill pack.

Active Ingredients

25 g/kg Di-ammonium Phosphate, 55 g/kg Murate of Potash, 140 g/kg Ammonium Sulphate, 700 g/kg Lime, 65 g/kg Ferrous Sulphate in the form of a granule. NPK 3-1-3

Application

Apply at a rate of 28 g/m², i.e. 2.8 kg covers 100 m².

Directions

- 1) Wait at least 2 days after mowing lawn.
- 2) Ideally use with the LawnPro spreader device – or wearing gloves sprinkle by hand
- 3) Walk at a slow and steady pace up and down the lawn. Walk approx. 10 m in 15 seconds.
- 4) For best results work in two passes at right angles to each other, e.g. north-south, then east-west.
- 5) Water in with 1 hour gentle sprinkler or moderate to heavy rain (approximately 5 mm).
- 6) Do not mow until the product has been watered in.

Caution

- Cause skin and eye irritation.
- Avoid contact with skin and eyes.
- Do not contaminate waterways.
