LawnPro Turfclean

For the control of broadleaf weeds in lawns

www.kiwicare.co.nz

Background

[LawnPro Turfclean](#) has been formulated for the control of the broadest range of broadleaf weeds in New Zealand lawns. The combination of 3 active ingredients is balanced to ensure the most common weeds in New Zealand lawns are controlled with not risk of burning the fine lawn grasses grown as lawns in New Zealand.

Benefits and Features

- Tri action formula – systemic actives work together to control the common lawn weeds.
- Curative – Kills existing broadleaf weeds including dandelions, daisies, clover, chickweed, dock, plantain, speedwell, thistles and others.
- Preventative – continues activity in the soil to suppress growth of weeds and moss for an extended period.
- Unlike similar products the balance of actives has been selected to reduce the risk of burn to fine turf grasses used in New Zealand lawns.
- Safe for children and pets once dry.

Controls

- Broadleaf weeds including [dandelions](#), [daisies](#), [clover](#), [chickweed](#), [Onehunga](#), [dock](#), [plantain](#), [speedwell](#), [thistles](#), [selfheal](#) and many others.

Available As

- Concentrate: 200 ml, 500 ml, 1 L.

Active Ingredients

Concentrate: 168.5 g/L Mecoprop, 42 g/L MCPA, 21 g/L Dicamba as the Diethanolamine salts in the form of a soluble concentrate.

Directions

Turfclean concentrate

1. Measure size of lawn. (1 L mix will cover 10 m²)
2. On established lawns dilute 10 ml to 1 L water.
3. On lawns 2-6 months old dilute 5 ml to 1 L water.
4. Apply using a pressure sprayer.

•“Lawnboy” sprayer application: 100 ml of LawnPro Turfclean in 6 litres of water over 100 m² of lawn. Best results are obtained by 2 sprayings/passes of 3 litres each.

Tips

- Allow 2 weeks for weeds to die.
- Apply during Spring and Autumn when weeds are actively growing.
- Avoid applying if lawn is under stress or suffering from drought.
- Do not apply if rain is expected within 2 hours.
- Apply in calm weather to avoid spray drift onto desirable plants.
- Dandelion, catsear, daisy and other difficult weeds can be spot treated using LawnPro Turfclean diluted at 30 ml/L.
- Use Kiwicare Dye & Stick for improved performance and to help track the areas sprayed.
- See also: LawnPro Feed & Flourish , Kiwicare's new lawn feeder and conditioner in an easy to apply spreader pack.

Caution

- New lawns – do not apply for the first 2 months.
- Do not use on cotulla and dichondra lawns or those where clover is being encouraged.
- Not suitable for buffalo lawns.
- If composting lawn clippings, do not use compost for six months.
- Some burning may occur with fine turf grasses.

Regulations

- HSNO Approval code: HSR000362
