NO Bed Bugs Total Protection

Benefits and Features

- Protects beds and luggage from bed bugs.
- Breaks breeding cycle, female bed bugs lay sterile eggs and prevents nymphs reaching maturity.
- One spray gives up to 6 months protection.
- Ideal for protecting your luggage prior to travel to prevent bringing bed bugs home.

Directions

Spray all areas where signs of infestation have been found, and all possible bed bug hiding places. Vacate room and let spray dry.

Protect Luggage> A light spray of your luggage prior to travel will help prevent infestations. Spot test a small section before carrying out a full treatment.

1. First vacuum all infested areas thoroughly.
2. Using pinch and twist motion, adjust spray nozzle to SPRAY position.
3. Hold applicator 30-40 cm from the area to be treated.
4. Pump the trigger firmly and apply spray to cracks and crevices around bed frames, skirting boards, architraves, luggage, floors and under carpet edges, furnishings, bedding and adjacent wall areas.
5. Turn nozzle to STOP/OFF position after use.
6. Repeat treatment after 7 days if required

For Best Results

- Use as part of the Kiwicare [1-2-3 Bed Bug Control Programme](#).
- See kiwicare.co.nz for more information on bed bug control.
