NO Cats & Dogs

Benefits and Features

- Surface spray to effectively deter Cats and Dogs.
- Long lasting – continues to deter Cats and Dogs for up to two months.
- For outdoor use only.
- Low odour.
- Can also be used to deter browsing animals such as possums, rabbits and hares.
- Sprayed surfaces safe for children and pets when dry.
- For outdoor use.

Controls

- [Cats](#)
- [Dogs](#)
- [Rabbits](#)
- [Hares](#)
- [Possums](#)

Directions

1. Using pinch and twist motion, adjust spray nozzle to SPRAY position.
2. Hold applicator 30-40 cm from the area to be treated.
3. Pump the trigger firmly and apply as a coating to the surface/soil that cats, dogs or browsing animals are to be deterred from (Note: [NO Cats & Dogs](#) leaves a hard, pale residue on surfaces; test before use).
4. Turn nozzle to STOP/OFF position after use.

For Best Results

- Apply on full rubbish bags, letter boxes, posts, fences, hedges and other problem areas.
- Apply to ALL problem areas such as around the rubbish bags or regular animal toilet areas.
- Spray or paint onto areas of the garden where cats or dogs are using as their toilet. The area treated will deter cats and dogs for 2-4 weeks depending on the amount applied, weather exposure and substrate treated.
- If necessary re-apply every 2-7 days until the habit is broken.
- For continued deterrence re-apply every 1-2 months.
- Do not apply to crop plants, best applied to soils or other areas animals are digging or toileting.
- For browsing animals apply to plants/trees to be protected from browsing.
- [NO Cats & Dogs](#) dries to leave a pale residue that may be unsightly on dark materials and difficult to remove from some surfaces. Test in a discrete area before spraying fully.

Use as Part of the Kiwicare 1-2-3 Animal Control Programme

1. CLEAN: Clean away any animal dung and/or anything that may be attracting the animal to the area.
2. SPRAY: Spray using Kiwicare NO Cats & Dogs Animal Repellent on the areas Cats and Dogs frequent to deter them from resting or toileting.
3. PERSIST: Continue to treat the area every 3-7 days until the animals desist. Habitual behaviour, built up over a long period, may take more than 2 weeks to break.

For more information on identification and control of specific pests go to the Kiwicare website – kiwicare.co.nz

Active Ingredients

80 g/L Thiram in a ready to use form.

Registration

HSNO Approval Code: HSR000730.

Caution

Keep out of the reach of children. Keep children and animals away from the treated areas until spray is dry. Do not apply directly on to animals.

Available As

- 680 ml ready to use spray.
