Organic Insect Control - Pyrethrum

Natural insect pest control for organic growers.

Benefits and Features

- Fast acting control of a wide range of insect pests.
- For use on fruit, vegetables, roses and ornamentals.
- Natural pyrethrum insecticide.
- BioGro® Certified Organic for use in organic gardening.
- 1 day withholding period.

Controls

- [Aphids](#)
- [Passion vine hoppers](#)
- [Whitefly](#)
- [Thrips](#)
- [Caterpillars](#)
- [Pear slugs](#)
- [Bronze beetle](#)
- Many more

Directions

1. Shake well.
2. Dilute 5 ml of concentrate in 5 L of clean water.
3. Apply using a pressure sprayer.
4. Spray entire plant until just wet. Apply to leaves on both the upper and lower surfaces, but avoid over wetting.

Available As

- 60 ml concentrate

Active Ingredients

Concentrate: 13 g/L Pyrethrum (Pyrethrins) in the form of a emulsifiable concentrate.

For Best Results

- Apply in Spring, Summer and Autumn; but can be applied all year round.
- Ensure complete coverage of foliage including undersides of leaves.
- Apply spray every 3 - 14 days from when insects start to appear or as required.
- Best applied in the evening.

Caution

- Do not mix with lime sulphur, Bordeaux mixture or any other alkaline materials.
- Wash treated crops before eating. Do not eat crops within 1 day of application.

Regulations

Registered pursuant to the ACVM Act 1997, No P8185.

HSNO Approval Code: HSR000051.
