Weed Weapon Extra Strength

[Weed Weapon Extra Strength](#) is a post-emergence weedkiller with rapid activity recommended for the control of annual grasses and broad-leaved weeds.

About

[Weed Weapon Extra Strength](#) contains 2 active ingredients with different modes of action:

- Glyphosate controls existing weeds by moving into the weed and down to the roots.
- Saflufenacil moves into the leaves of existing weeds and blocks photosynthesis causing rapid damage to green parts of the plant this allows glyphosate to enter and assists its movement to the roots.

Benefits and Features

- Ideal for the control of weeds in driveways, paths and fence lines.
- Kills a broad range of weeds and grasses.
- Kills to the roots for effective control.
- Biodegradable in soil.
- Rain fast in 2 hours.
- Can be used all year round.
- Safe for children and pets once dry.

Controls

- | | | | |
|----------------------------------|-----------------------------------|--|---------------------------------|
| • Agapanthus | • Cornbind | • Groundsel | • Spurrey |
| • Annual grasses | • Cut-leaved geranium | • Hawksbeard | • Tradescantia |
| • Bindweed | • Daisies | • Ivy | • Twincross |
| • Bittercress | • Dandelion | • Nettle | • Wandering Jew |
| • Blackberry | • Docks | • Onion weed | • Wild portulaca |
| • Broom | • Fathen | • Oxalis spp. | • Wild turnip |
| • Carrot weed | • Field bindweed | • Plantain | • Willow weed |
| • Chickweed | • Field speedwell | • Red deadnettle | • Wireweed |
| • Redroot | • Fumitory | • Scrambling fumitory | • Yarrow |
| • Cleavers | • Galinsoga | • Scrambling speedwell | ... and more |
| • Clovers | • Gorse | • Shepherd's purse | |
| • Convolvulus | • Grasses | • Sow thistle | |

Ideal Uses

Waste areas, roadsides, paths, driveways, flower beds, and other non-crop areas.

Directions

1 L Ready to Use

1. Shake well.
2. Turn nozzle to 'SPRAY' position.
3. Spray entire weed until foliage just wet.
4. Return nozzle to 'OFF' position after use.

4 L Pump'n'Spray

1. Shake well.
2. Twist the handle clockwise to unlock it.
3. Raise the pump handle and pump until you feel resistance. Do not exceed 30 pumps.
4. Lower the pump handle, then turn anti-clockwise to lock the handle into place.
5. Lift the spray wand about 30 cm from the area to be treated.
6. Spray by pressing down the trigger of the spray wand.
7. Rotate the nozzle at the tip of the spray wand to adjust the spray pattern.
8. Spray all weed foliage in a sweeping motion until foliage just wet.

Pump'n'Spray Refill

1. Only refill with Kiwicare Weed Weapon Extra Strength.
2. Fill with 5 L of water. You can measure this by placing the spray wand (to the kink) into the neck of the unit. The water line should sit at the bottom of the nozzle of the wand.
3. Add 62.5 ml of Weed Weapon Extra Strength concentrate.
4. Replace lid tightly. Then shake well before use.
5. Use entire contents of refilled Pump & Spray within 2 days of filling.

For best results

- Weeds may be removed and/or planting can occur in treated area 5 days after spraying.
- Most effective when weeds are actively growing.

Tips & Tricks

- Effects can take up to 7 days to show on some tough weeds or weeds in deep shade. In these cases a second application is recommended after 7 days.
- Ensure whole colony is sprayed for colonial weeds such as ivy, agapanthus, etc.
- Best applied in sunny weather with temperatures over 10°C.
- Spray in calm conditions to reduce the chance of overspray onto desirable plants. If desirable plants are sprayed, immediately hose off with water.

Caution

- Do not mow or cultivate after treatment until weeds have died.
- Wait 5 days before planting in sprayed areas.
- Avoid contact with foliage, new bark or near roots of desirable plants. If a desirable plant is sprayed, immediately hose off with water.
- On lawn weeds, use spot treatment as Weed Weapon will kill lawn grasses.
- Do not use around fruit vines, avocado trees or sensitive plants.

Active Ingredients

Ready to Use: 7.2 g/L Glyphosate, 0.07 g/L Saflufenacil in the form of a ready to use spray.

Registration

Ready to Use: HSNO Approval Code HSR101140

Available As

Ready to Use: 1 L, and 4 L Pump'n'Spray
