# Weed Weapon Pre-Measure Granular

**Weed Weapon Granular is pre-measured into sachets. You simply add the contents of a sachet into your sprayer and add water.**

## Benefits and Features

- Highly effective general weedkiller.
- Rapid uptake.
- Kills most garden weeds to the roots with a single application.
- Rainfast in 2 hours.
- Not active in the soil.
- Not residual.
- Each sachet makes 5 L treating up to 50 m. Total pack covers up to 250 m for general weed control.

## Controls

- [Annual grasses](#)
- [Carrot weed](#)
- [Chickweed](#)
- [Cleavers](#)
- [Clovers](#)
- [Daisies](#)
- [Dandelion](#)
- [Docks](#)
- [Fathen](#)
- [Fumitory](#)
- [Grasses](#)
- [Groundsel](#)
- [Nettle](#)
- [Scrambling fumitory](#)
- [Scrambling speedwell](#)
- [Shepherd's purse](#)
- [Willow weed](#)
- [Wireweed](#)
- ... and more

## Ideal Uses

Waste areas, roadsides, paths, driveways, flower beds, and other non-crop areas.

## Directions

### Granule Concentrate

1. Remove and cut 1 sachet. Snip off the corner and pour contents into your 4 or 5 litre sprayer.  
Fill with 4 or 5 litres of clean water.
2. Shake well to dissolve the granules.
3. Spray onto weed foliage until just wet.
4. 1 L spray covers approx. 10m<sup>2</sup>.

## For Best Results

- For post-emergent control apply when weeds are actively growing. Expect visible effects in as little as two days.
- Weeds may be removed and/or planting can occur in treated area 5 days after spraying.
- Best applied when weeds are actively growing.
- Apply in temperatures above 10°C.

## Tips & Tricks

- Effects can take up to 14 days to show on some tough weeds. In these cases a second application is recommended after 14 days.
- Best applied in temperatures over 10°C.
- Spray in calm conditions to reduce the chance of overspray onto desirable plants. If desirable plants are sprayed, immediately hose off with water.

## Caution

- Do not mow or cultivate after treatment until weeds have died.
- Avoid contact with foliage, new bark or near roots of desirable plants. If a desirable plant is sprayed, immediately hose off with water.
- On lawn weeds, use spot treatment as Weed Weapon Granular will kill lawn grasses.
- Do not use around fruity vines, avocado trees or sensitive plants.

## Active Ingredients

**Concentrate:** 706 g/kg Glyphosate as the mono- ammonium salt in the form of a water-soluble granule.

## Registration

**Concentrate:** HSNO Approval Code HSR101245

## Available As

**Granular Concentrate:** 5 x 25 g Sachets.
