

KIWICARE®

INSECT CONTROL GRANULES

Controls a wide range of insect pests in turf, soil, around hedges, shrubs and ornamentals.

- Easy to use fast acting granules
- Dual action formula – contact and systemic giving longer lasting control
- Controls insect pests on the surface and deep in the soil
- Systemic insecticide penetrates deeply to protect grass roots and shoots
- Apply every 3 months for continuous protection

Use on **turf (and soil)** to control:

Grass grub, porina caterpillar, slaters, ants, cluster flies, cutworms, earwigs and more.

Use on **soil** around shrubs, hedges and ornamentals to control:

Psyllids, scale insects, ants, mealy bugs, slaters aphids and fungus gnat

Note: Insect Control Granules are not registered for use on vegetables or other crops

DIRECTIONS

- Sprinkle evenly over area to be protected at a rate chosen from the table below.
- Water in by sprinkler irrigation or moderate to heavy rain (10mm)

Insect/pest	Rate of application	Application Notes
on lawns and large areas		
Grass Grub	100 g per 15 m ²	use when grubs are feeding close to the surface (Feb-May) can also be used at any time of year as protective and curative
Porina Caterpillar	100 g per 30 m ²	sprinkle evenly and water in
Slaters / earwigs	100 g per 10 m ²	use on garden beds and around buildings
